

# JENNIFER TRAINI

## WHY ME?

I am 25 and I speak five languages. I care deeply about ONE's mission; furthermore, I am a fast learner, a very curious and meticulous person and this is why I was drawn to data science in the first place. I enrolled in the specialization out of curiosity but to identify patterns and trends by simply analyzing data proved to be very interesting. I would love to put into practice what I learnt.
